PROFESSIONAL SUMMARY

Final-year B.Tech CSE student specializing in AI/ML, with hands-on experience developing end-to-end machine learning pipelines and computer vision architectures. Proficient in Python, PyTorch, and Scikit-Learn, with a strong background in theoretical computer science and AI strategy. Passionate about building robust, scalable AI applications to solve complex real-world challenges.

EDUCATION

Acropolis Institute of Technology and Research	2023 – 2027
<i>B.Tech in Computer Science Engineering (RL)</i>	
The Vedansh International School	2022
<i>Higher Secondary (CBSE)</i>	
The Vedansh International School	2021
<i>Secondary School (CBSE)</i>	

EXPERIENCE

AI Intern: IBM SkillsBuild (in collaboration with AICTE)	6 Weeks
- Completed an intensive virtual internship focusing on AI Strategy, Business Intelligence, and data analysis - Leveraged data insights to drive AI-based decision-making and optimize simulated business workflows	
Machine Learning Intern: YuvaIntern	
- Built and evaluated supervised learning models end-to-end — from data cleaning and feature engineering through training and validation — using Python, Pandas, and Scikit-Learn - Streamlined preprocessing pipelines and benchmarked multiple algorithms with hyperparameter tuning, improving model accuracy and documenting results for the team	

PROJECTS

Mentara — CDC Mentor-Mentee Management Platform
Developed a role-based CDC platform with separate portals for Admin, Mentor, and Mentee to manage mentor-mentee activities, tasks, announcements, and placement coordination
ARMADIO — AI-Powered Virtual Wardrobe
Built a full-stack AI virtual closet enabling semantic wardrobe search, personalized styling, outfit generation, and packing assistance
Driver Drowsiness Detection System
Developed a real-time driver safety system using facial landmarks, EAR, and MAR to detect drowsiness and yawning with automated alerts
AI Resume Analyzer
Engineered an AI-powered resume evaluation and screening system using NLP to parse resumes, extract key skills/experience/qualifications, and score candidates against job descriptions by flagging missing keywords and skill gaps to improve ATS compatibility

SKILLS

• Python	• OpenCV	• Scikit-Learn	• Deep Learning
• C/C++	• NumPy	• Computer Vision	• Data Analysis
• SQL	• Pandas	• Machine Learning	• Git
• PyTorch	• Matplotlib	• Generative AI	• OOP

CERTIFICATIONS

- AI Fluency: Framework & Foundations — Anthropic
- Applied AI: Build an AI Agent — IBM/CSRBOX
- Oracle Cloud Infrastructure 2025 AI Foundations Associate
- Google Generative AI Certification
- NPTEL DBMS

ACHIEVEMENTS

- Winner — Innovik 6.0 and Innovik 5.0 Hackathons; secured top-five positions in two additional national/international hackathons, all as an AI/ML Developer and Presenter
- Class Topper in Grade 11; 3rd Position in Bal Vigyaan for a chemistry waste management project
- Liaison Officer for school Youth Fest; active volunteer with Microsoft, Nirmaan Organization, and Redington Group
